Platform: NileConnect Egypt Marketplace Facilitator | **Document Type:** Official Architectural Specification | **Generated:** November 2026

User Guide & Component Testing Manual: Multi-Store Facilitator & Outsourced Delivery PoC

1. Quick Access URLs (Live on Vercel Cloud & Local Services)

Service Name	Live Vercel Production URL	Local URL	Purpose
1. Multi-Store Marketplace Facilitator PoC	**https://egypt-ecommerce-poc.vercel.app**	**http://localhost:4000**	Main application with **6 dedicated workspaces**: Client Storefront, My Orders & Tracking, Mobile App, Partner Store Portal, Outsourced Delivery Hub, and Facilitator Control Tower.
2. Egyptian Fintech & Outsourced 3PL Mockup Server	**https://egypt-ecommerce-poc.vercel.app/mock-dashboard**	**http://localhost:4001**	Sandbox simulating **Paymob Split**, **FawryPay**, **valU**, **WhatsApp COD OTP**, **Bosta Store-to-Client Delivery**, and **Cash Settlement**.
3. Architecture & 1st-Year Liability Study	**https://egypt-ecommerce-poc.vercel.app/study**	**http://localhost:8080**	Comparative study of the Top 5 platforms and 1st-Year Liability Calculator.

2. Interactive Guide to the 14-Step Fulfillment Lifecycle

Follow this step-by-step walkthrough across the platform's tabs to verify the full fulfillment cycle:

Steps 1–4: Client Shopping & Checkout

1. **Step 1 (Select Location):** On **Tab 1 (** `🛒 Client Storefront` **)**, locate the 📍 **Choose Your Shopping Location** bar.

- Click **Cairo (Nasr City)**: Notice the partner store dropdown immediately filters to stores operating in Cairo (*Cairo Tech Hub*), and the product catalog updates to show Cairo inventory only.

2. **Step 2 (Add to Cart):** Add items to cart (e.g. 1x iPhone 16 Pro + 1x AirPods Pro 2).

3. **Step 3 (Checkout):** Proceed to the 3-step checkout drawer; delivery address automatically defaults to the selected governorate.

4. **Step 4 (Select Payment Method):** Select **Credit / Debit Card** or **Cash on Delivery (COD)**.

- On submit, the order is created in `order_status = 'pending-store-review'`.
- For card payments, money is held in pre-authorization and a **4-digit Handover PIN** is created.

Step 5: Partner Store Availability Review

5. Switch to **Tab 4 (`🏪 Partner Store Portal`)**.

- Under the **Store Availability Review** card, locate the pending order.
- Inspect the items checklist: Check the in-stock item (iPhone 16 Pro) and **uncheck / de-select** the out-of-stock item (AirPods Pro 2).
- Click ✅ **Confirm In-Stock Items & Send to Client**.
- The platform releases the reserved stock of the de-selected item, recalculates the order total, and moves status to `store-reviewed`.

Steps 6–7: Client Confirmation & Card Money Capture

6. Switch to **Tab 2 (`📦 My Orders & Tracking`)**.

- In the top order card, a cyan review banner will appear: **"Step 6 & 7: Store Verified Items • Your Confirmation Required"**.
- Review the revised items and updated total.
- Click 💳 **Confirm & Proceed (Money Taken from Card)**.
- The system captures the funds from the client's card (`payment_status = 'paid'`) and moves the order to `ready-to-ship`.
- *(Alternatively, clicking "Reject Order" voids the pre-auth hold and cancels the order with 0 charge).*

Steps 8–12: Packaging & Proximity Courier Delivery

7. **Step 8 (Store Packaged):** In **Tab 4** (or Tab 5), click 📦 **Step 8: Mark Store Packed**. The sub-order packaging status changes to `READY_FOR_COURIER_PICKUP`.

8. **Step 9 (Proximity Courier Search & Assign):** Switch to **Tab 5 (`🚚 Outsourced Delivery Hub`)**.

- The platform queries the nearby fleet for the store branch governorate.
- Click 🎯 **Step 9: Assign Nearest Courier (Tarek Mostafa • 0.8 km)**.

9. **Step 10 & 11 (Courier Pickup):** Click 🚚 **Step 10: Tarek Mostafa Confirm Pickup**. The courier confirms pickup at the branch, and a real-time push notification is sent to the client.

10. **Step 12 (Reach Client):** Click 📍 **Step 12: Mark Courier Arrived at Client**. Status moves to `ARRIVED_AT_CLIENT`.

Steps 13–14: Handover Code Verification vs. COD Cash Collection

11. **Step 13 (Handover Code / Cash):**

- **For Prepaid Card Orders:** Client opens **Tab 2 (`My Orders`)** and views their secret **4-digit Handover PIN** (e.g. `7985`). The client tells this code to the courier.

- **For Cash on Delivery (COD) Orders: Crucial Rule:** *In case of cash on delivery, no need for the code.* The client simply pays the cash total.

12. **Step 14 (Handover Confirmation & Settlement):**

- In **Tab 5 (** `Delivery Hub` **)**:
- If **Prepaid**: Enter the 4-digit PIN into the input box and click **Verify & Deliver**. (Entering an invalid PIN such as `0000` is rejected with an alert).
- If **COD**: Click 💵 **Step 14: Confirm Cash Received & Deliver** (no PIN required).
- Parcel is handed over, marked `DELIVERED`, and automated cash settlement (`STL-xxxxxx`) is executed.

---

3. Sanity Check Test Data from Historical Orders

The following test data was recorded during the comprehensive automated test cycle on the platform:

Order Number	Status	Payment Method (Status)	Handover PIN	Courier Assigned	Settlement Ref	Total (EGP)	Customer & Location
EG-5877-28	`completed-settled`	`cod` (settled)	`N/A (COD: 7699)`	Karim Adel (🛵 Motorcycle)	`STL-763997`	1,520.00 EGP	Laila Mourad (GIZA)
EG-5456-89	`completed-settled`	`paymob_card` (settled)	`7985`	Tarek Mostafa (🛵 Motorcycle)	`STL-781080`	64,555.00 EGP	Tamer Hosny (CAIRO)
EG-4962-36	`cancelled`	`fawry_ref` (expired)	`4341`	Bosta Rider	`N/A`	72,070.00 EGP	Nourhan Adel (ALEX)
EG-4554-83	`completed-settled`	`cod` (settled)	`N/A (COD: 4448)`	Bosta Rider	`STL-728569`	24,070.00 EGP	Tarek Mansour (CAIRO)
EG-3782-37	`completed-settled`	`paymob_card` (settled)	`8457`	Bosta Rider	`STL-714111`	49,530.00 EGP	Omar El-prince (CAIRO)
EG-87269-40	`in-transit`	`paymob_card` (paid)	`5638`	Tarek Mostafa (🛵 Motorcycle)	`N/A`	64,555.00 EGP	Tamer Hosny (CAIRO)
EG-86801-34	`cancelled`	`fawry_ref` (expired)	`8783`	Bosta Rider	`N/A`	72,070.00 EGP	Nourhan Adel (ALEX)
EG-86401-98	`completed-settled`	`cod` (settled)	`N/A (COD: 7862)`	Bosta Rider	`STL-720650`	24,070.00 EGP	Tarek Mansour (CAIRO)
EG-85624-16	`completed-settled`	`paymob_card` (settled)	`2590`	Bosta Rider	`STL-709248`	49,530.00 EGP	Omar El-prince (CAIRO)
EG-64480-37	`ready-to-ship`	`paymob_card` (paid)	`4919`	Bosta Rider	`N/A`	64,555.00 EGP	Tamer Hosny (CAIRO)

4. Key Verification Takeaways

- **Prepaid Security:** Prepaid card orders strictly mandate the 4-digit Handover PIN. Attempting to deliver with an invalid PIN triggers an immediate rejection.
- **COD Convenience:** Cash on Delivery requires no PIN code. Physical cash handover provides proof of fulfillment and immediately unlocks cash settlement.
- **Store De-Selection Protection:** Partner stores can safely de-select out-of-stock items; the platform adjusts order pricing and reserves before client confirmation.
- **Proximity Courier Matching:** Dispatch selects couriers located within 0.8–1.4 km of the partner store branch, cutting pickup latency significantly.
